About expressing gratitude

Dear Mr. Gsänger!

The State Emergency Service of Ukraine expresses its respect to the World Wind Energy Association (hereinafter - WWEA), to You personally for the valuable support in this difficult time for our country through the State Emergency Service of Ukraine.

Ukrainian firefighters and rescuers protect civilians from modern threats 24/7. In such uncompromising times we see our true friends, who provide special high-value equipment, accessories and other goods of critical necessity.

The assistance received from WWEA (the solar panels) has strengthened the capacity of the emergency services and undoubtedly contributed to the improvement of emergency response in the context of ensuring uninterrupted power supply. Of course, in the conditions of the war with russia, the intensification of responses of the State Emergency Service's units increased many times, as a result of which our needs are being constantly updated.

The State Emergency Service of Ukraine avails itself this opportunity to renew the World Wind Energy Association, You personally assurance of it's deepest respect and looks forward to continuing productive cooperation.

Deputy Head

Serhii TREHUBENKO
